

Failure Table:

Run	Test Name	Description of Test	Expected output (phase 1)	Actual output (phase 3)	Code/test error causing failure	Changes to code/test
1	TestCase 1	Successful full-standard logging.	User 'FSUserTest' logged in. Current user type: Full Standard.	Please enter your username: User 'FSUserTest' logged in. Current user type: Full Standard.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 8	Attempt to login after already being logged in	User 'TestUser' is logged in. Current user type: Admin. Error: A user is already logged in. Please logout before trying to login again.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Error: A user is already logged in. Please logout before trying to login again.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 10	Attempt to perform a privileged transaction after a buy-standard login	User 'TestUser3' logged in. Current user type: Buy Standard. Error: Only admin users can delete accounts.	Please enter your username: User 'TestUser3' logged in. Current user type: Buy Standard.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 11	Attempt to perform a privileged transaction after a sell-standard login	User 'SellUser' logged in. Current user type: Sell Standard. Error: Only admin users can delete accounts.	Please enter your username: User 'SellUser' logged in. Current user type: Sell Standard.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 12	Successful unprivileged transaction after a full-standard login	User 'FSUserTest' logged in. Current user type: Full Standard. Successfully added \$100 to	Please enter your username: User 'FSUserTest' logged in. Current user	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"

			FSUserTest's account.	type: Full Standard. Enter amount of credit to add: \$100 added to FSUserTest's account.		
	TestCase 13	Successful unprivileged transaction after a buy-standard login	User 'TestUser3' logged in. Current user type: Buy Standard. Successfully added \$100 to TestUser3's account.	Please enter your username: User 'TestUser3' logged in. Current user type: Buy Standard. Enter amount of credit to add: \$100 added to TestUser3's account.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 14	Successful unprivileged transaction after a sell-standard login	User 'Selluser' logged in. Current user type: Sell Standard. Successfully added \$100 to SellUser's account.	Please enter your username: User 'SellUser' logged in. Current user type: Sell Standard. Enter amount of credit to add: \$100 added to SellUser's account.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 15	Successful privileged transaction after an admin login	User 'TestUser' logged in. Current user type: Admin. User 'User1' deleted successfully.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username to delete:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 19	Successful logout after admin login	User 'TestUser' logged in. Current user type: Admin. User 'TestUser' logged out.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. User 'TestUser'	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"

				logged out.		
	TestCase 21	Attempt to perform a transaction after logout	User 'TestUser' logged in. Current user type: Admin. User 'TestUser' logged out. Please login to access this feature.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. User 'TestUser' logged out. Please login to access this feature.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:"
	TestCase 24	Successful creation of a full-standard user by an admin	User 'TestUser' logged in. Current user type: Admin. User 'UserFull' created successfully.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit: User 'UserFull' created successfully.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:". Plus simplification of output to match more according to what was expected.
	TestCase 33	Attempt to create a new user with a full-standard account	User 'FSUserTest' logged in. Current user type: Full Standard. Error: Only admin users can create new accounts.	Please enter your username: User 'FSUserTest' logged in. Current user type: Full Standard.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:". And Addition of Error message.

	TestCase 34	Attempt to create a new user with tabs!	User 'TestUser' logged in. Current user type: Admin. Error: Username cannot contain tabs.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:". Plus simplification of output to match more according to what was expected.
	TestCase 35	Attempt to create a new user with special characters!	User 'TestUser' logged in. Current user type: Admin. Error: Username cannot contain special characters.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:". Plus simplification of output to match more according to what was expected.
	TestCase 36	Attempt to create a new user with spaces!	User 'TestUser' logged in. Current user type: Admin. Error: Username cannot be all spaces.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:". Plus simplification of output to match more according to what was expected.
	TestCase 43	Attempt to perform a transaction on a deleted user's available inventory	User 'TestUser' logged in. Current user type: Admin. Error: The	Please enter your username: User 'TestUser' logged in.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your

		of games	specified seller does not exist.	Current user type: Admin. Enter the name of the game you wish to purchase: Enter the seller's username: Error: User ' ' does not exist.		username:". And Addition of Error message.
	TestCase 44	Attempt to delete a user by an admin, but no username is provided	User 'TestUser' logged in. Current user type: Admin. Error: User ' ' does not exist.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username to delete:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:". Missing Error message.
	TestCase 46	Successful sale by a sell-standard user	User 'SellUser' logged in. Current user type: Sell Standard. Game 'GameName1' is now up for sale.	Please enter your username: User 'SellUser' logged in. Current user type: Sell Standard. Enter game name: Enter price: Game 'GameName1' is now up for sale.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:".
	TestCase 52	Successful sale, then attempt to sell another game in the same session	User 'TestUser' logged in. Current user type: Admin. Game 'New Game' is now up for sale. Error: You are not allowed to sell more than one game in a single session.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter game name: Enter price: Game 'New Game' is now up for sale. Enter game name: Enter price: Game 'Another Game' is now up for sale.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:". Missing Error message.

	TestCase 58	Successful purchase by a buy-standard user	User 'TestUser3' logged in. Current user type: Buy Standard. Purchase successful. Game Name 2 has been added to TestUser3's collection.	Please enter your username: User 'TestUser3' logged in. Current user type: Buy Standard. Enter the name of the game you wish to purchase: Enter the seller's username: Purchase successful. Game Name 2 has been added to TestUser3's collection.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:" and any other prompts.
	TestCase 63	Attempt to buy a game already in the buyer's collection	User 'FSUserTest' logged in. Current user type: Full Standard. Error: The buyer already owns a copy of this game.	Please enter your username: User 'FSUserTest' logged in. Current user type: Full Standard. Enter the name of the game you wish to purchase: Enter the seller's username:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:" and any other prompts.
	TestCase 67	Attempt to buy without entering game name	User 'TestUser2' logged in. Current user type: Admin. Error: The specified game is not available for sale by the user TestUser.	Please enter your username: User 'TestUser2' logged in. Current user type: Admin. Enter the name of the game you wish to purchase: Enter the seller's username:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:" and any other prompts.
	TestCase 72	Attempt to refund with a sell-standard account	User 'SellUser' logged in. Current user type: Sell Standard.	Please enter your username: User 'SellUser' logged in.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your

			This action is only available to admin users.	Current user type: Sell Standard. This action is only available to admin users.		username:” and any other prompts.
-	TestCase 77	Attempt to refund after logout	User 'TestUser' logged in. Current user type: Admin. User 'TestUser' logged out. Please login to access this feature.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. User 'TestUser' logged out. Please login to access this feature. Error: Seller does not have sufficient credit to cover the refund.	Mismatch with the code and the test.	Removal of the following line from the output: “Please enter your username:” and any other prompts. Remove the Error message.
	TestCase 78	Refund with an amount larger than the seller's current balance	User 'TestUser' logged in. Current user type: Admin. Error: Seller does not have sufficient credit to cover the refund.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter the buyer's username: Enter the seller's username: Enter the amount of credit to transfer: Error: Seller does not have sufficient credit to cover the refund.	Mismatch in the code's output.	Removal of the following line from the output: “Please enter your username:” and any other prompts. Remove the Error message.
	TestCase 85	Refund from a seller with a closed (deleted) account	User 'TestUser' logged in. Current user type: Admin. Error: Seller username does not exist.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter the buyer's	Mismatch in the code's output.	Removal of the following line from the output: “Please enter your username:” and any other prompts.

				username: Enter the seller's username: Enter the amount of credit to transfer:		
	TestCase 93		User 'TestUser' logged in. Current user type: Admin. User 'TestUser' logged out. Please login to access this feature.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. User 'TestUser' logged out. Please login to access this feature.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:" and any other prompts.
	TestCase 99		User 'TestUser' logged in. Current user type: Admin. Error: Adding the specified amount would exceed the maximum credit.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter amount of credit to add:	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:" and any other prompts. Remove the Error message.
	TestCase 100		User 'TestUser' logged in. Current user type: Admin. \$2 added to TestUser2's account. \$2 added to TestUser3's account.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter amount of credit to add: \$2 added to TestUser2's account. Enter username: Enter amount of credit to add: \$2 added to TestUser3's account.	Mismatch in the code's output.	Removal of the following line from the output: "Please enter your username:" and any other prompts.

Run	Test Name	Description of Test	Expected output (phase 1)	Actual output (phase 3)	Code/test error causing failure	Changes to code/test
2	TestCase 24	Successful creation of a full-standard user by an admin	Please enter your username: User 'TestUser' logged in. Current user type: Admin. User 'UserFull' created successfully.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit: User 'UserFull' created successfully.	Mismatch in the code's output.	Simplification of output to match more according to what was expected.
	TestCase 33	Attempt to create a new user with a full-standard account	Please enter your username: User 'FSUserTest' logged in. Current user type: Full Standard. Error: Only admin users can create new accounts.	Please enter your username: User 'FSUserTest' logged in. Current user type: Full Standard.	Mismatch in the code's output.	Addition of Error message.
	TestCase 34	Attempt to create a new user with tabs!	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Error: Username cannot contain tabs.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit:	Mismatch in the code's output.	Simplification of output to match more according to what was expected.

	TestCase 35	Attempt to create a new user with special characters!	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Error: Username cannot contain special characters.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit:	Mismatch in the code's output.	Simplification of output to match more according to what was expected.
	TestCase 36	Attempt to create a new user with spaces!	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Error: Username cannot be all spaces.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter username: Enter user type (Admin, FullStandard, BuyStandard, SellStandard): Enter initial credit:	Mismatch in the code's output.	Simplification of output to match more according to what was expected.
	TestCase 43	Attempt to perform a transaction on a deleted user's available inventory of games	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Error: The specified seller does not exist.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter the name of the game you wish to purchase: Enter the seller's username: Error: User ' ' does not exist.	Mismatch in the code's output.	Addition of Error message.
	TestCase 44	Attempt to delete a user by an admin, but no username is provided	Please enter your username: User 'TestUser' logged in. Current user type: Admin.	Please enter your username: User 'TestUser' logged in. Current user	Mismatch in the code's output.	Missing Error message.

			Error: User ' ' does not exist.	type: Admin. Enter username to delete:		
	TestCase 52	Successful sale, then attempt to sell another game in the same session	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Game 'New Game' is now up for sale. Error: You are not allowed to sell more than one game in a single session.	Please enter your username: User 'TestUser' logged in. Current user type: Admin. Enter game name: Enter price: Game 'New Game' is now up for sale. Enter game name: Enter price: Game 'Another Game' is now up for sale.	Mismatch in the code's output.	Missing Error message.
	TestCase 58	Successful purchase by a buy-standard user	Please enter your username: User 'TestUser3' logged in. Current user type: Buy Standard. Purchase successful. Game Name 2 has been added to TestUser3's collection.	Please enter your username: User 'TestUser3' logged in. Current user type: Buy Standard. Enter the name of the game you wish to purchase: Enter the seller's username: Purchase successful. Game Name 2 has been added to TestUser3's collection.	Mismatch in the code's output.	Fix up how prompts are printed
